

WHAT GOES WHERE?

Making the most of the 3 bin system.

Organics is easy. Here are some tips to help make the most of your green lidded organics bin.

Kitchen Caddy with Council approved Liner

It's amazing how far we've come and how we're now able to turn our leftovers into organic goodness for our farmers. It's time to sort our waste properly!

Utilise your Kitchen Caddy and Compostable Liners as they are a clean and easy way to collect organics, especially indoors!

ORGANICS

WEIRD AND WACKY, YET STILL ORGANIC!

Check this list for items that can be disposed of in the organics bin.

- | | |
|-------------------------------|---|
| ✓ Facial tissues | ✓ Food scraps |
| ✓ Feathers | ✓ Meat & fish bones |
| ✓ Eggshells | ✓ Citrus fruits |
| ✓ Human and animal hair | ✓ Paper towel |
| ✓ Jelly & lollies | ✓ Dairy |
| ✓ Tea bags & coffee grinds | ✓ Bones |
| ✓ Kitty litter (paper & clay) | ✓ Pizza boxes |
| ✓ Cooked food | ✓ Garden Clippings |
| ✓ Shredded & scrunched paper | ✓ Oils & fats
(absorb liquid in paper first) |

You can even bag pet waste in a compostable liner and place it in the organics bin!

For a full list of other organic items suitable for the green lidded compostable bin visit www.halvewaste.com.au

WHAT'S ORGANIC?

In a nut-shell, all food and vegetable scraps, peelings, leftovers, meat and dairy can go into the organics bin (along with the nut shell!)

An added benefit of the organics bin is that all collected material will eventually become quality compost that will become a valuable resource for the agriculture, horticulture and viticulture industry.

The more organic material that is recycled the less methane gas is produced, as well as significantly reducing the pressure on our already limited landfill space.
